## Our Mission

**"Exporting Canadian expertise in transport logistics and industrial agribusiness"**

QUICK TRANSIT LOGISTIQUE Inc is a Canadian company operating in the transport and logistics sector.

We work in close collaboration with our customers around the world to offer them the best service in transport and distribution of industrial goods.

We offer a personalized service, adapted to each client and partner, in order to satisfy their logistics needs. Our team closely monitors the logistics chain of our customer's products in order to guarantee delivery in excellent condition and as soon as possible.

We provide a **CIF service** by taking care of all the steps related to shipping procedures, ranging from administrative and customs formalities to the final port of destination.

We also offer the possibility for our customers to choose the **FOB service**. In this case, our support services will be limited to the port of embarkation or unloading of the customer's containers.

Regardless of the size of the freight, we are committed to providing the best logistics service in terms of costs and delivery times.

In order to supply our customers with quality raw materials, and in order to respond effectively to the growing global demand in the sector, we have decided to create a department totally dedicated to Agribusiness.

### Our Vision

We will promote quality agriculture and facilitate the commercialization of local products for the benefit of producers and consumers all over the world.

### Our Values

Our priorities are centered on respect for the value of work and collaboration in transparency. Each agribusiness project is a new adventure, both for us, for our suppliers as well as for our customers, the latter attaching great importance to participating in the development of the value chain of our products from a **"win-win"** perspective. Also, to achieve an optimal result, each project requires close collaboration between the main stake holders.

### Our Team Spirit

QUICK TRANSIT LOGISTIQUE is made up of a professional, experienced and dynamic team, motivated to lead projects of any caliber, while respecting tight deadlines. We also rely on a network of local partners and a cluster of farmers from the regions of West Africa, particularly southern Senegal (Casamance) and Guinea-Bissau.

# AGROBUSINESS

## *Export and Marketing of Cashew Nuts.*

### ***QUICK TRANSIT LOGISTIQUE INC A Market Leader in West Africa.***

In the first phase of development of our Industrial Agribusiness activities, our team retained the commercialization of superior quality cashew nuts offered to our customers after a rigorous selection process.

Originally from Brazil, cashew, the fruit of the cashew tree, is increasingly produced, processed and marketed around the world.

West African countries are among the world's largest producers of this raw material. Recent statistics of this growing market indicates that Africa has a production capacity of just over 1.6 million tons exported per year, or nearly 80% of world exports.

**QUICK TRANSIT LOGISTIQUE** is positioned as a leader as a logistics supplier and in industrial distribution to major processing countries including Vietnam and India.

# Portfolio

## ***Cashew Nuts, The Product of the Future***

## Our Export Volume and Cashew Capacity

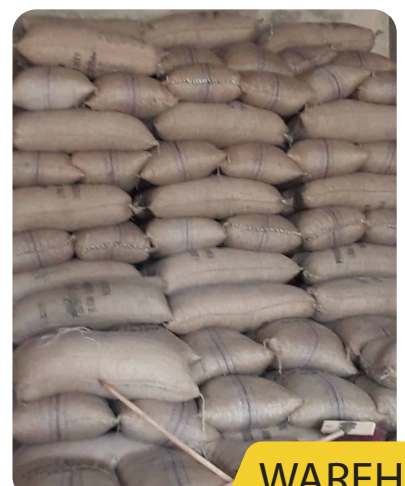

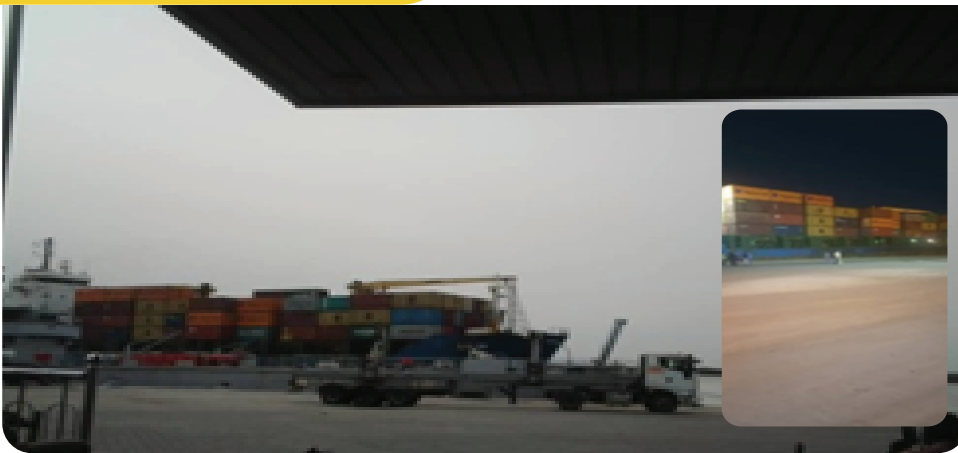

**\* From 500 to 100,000 tons per year.**

**QUICK TRANSIT LOGISTIQUE** is gradually establishing itself in West Africa as a leader in the Import-Export market and the commercialization of high-quality cashew nuts.

From our office in the city of Ziguinchor (Senegal), our teams work directly with cashew producers and cooperatives in all the countries of the region with high production potential (Ivory Coast, Guinea Bissau, Guinea Conakry, Gambia , Burkina Faso, Benin, Togo, Mali,).

This very strategic geographical positioning of our operational office and our logistics transport platform in Senegal gives us very important leverage in terms of capacity and volume of supply of this raw material in order to satisfy our customers around the world.
